# Tactical Leader's Guide for Combat Operations

## NEW!

**C**ontains over 130 Combat Checklists to enhance your ability to plan and execute combat operations. From Troop leading procedures to CBRNE operations we've got you covered. This guide takes thousands of time-tested lessons learned from every aspect of combat operations and combines them into one easy to use tool.

### LEARN TO:

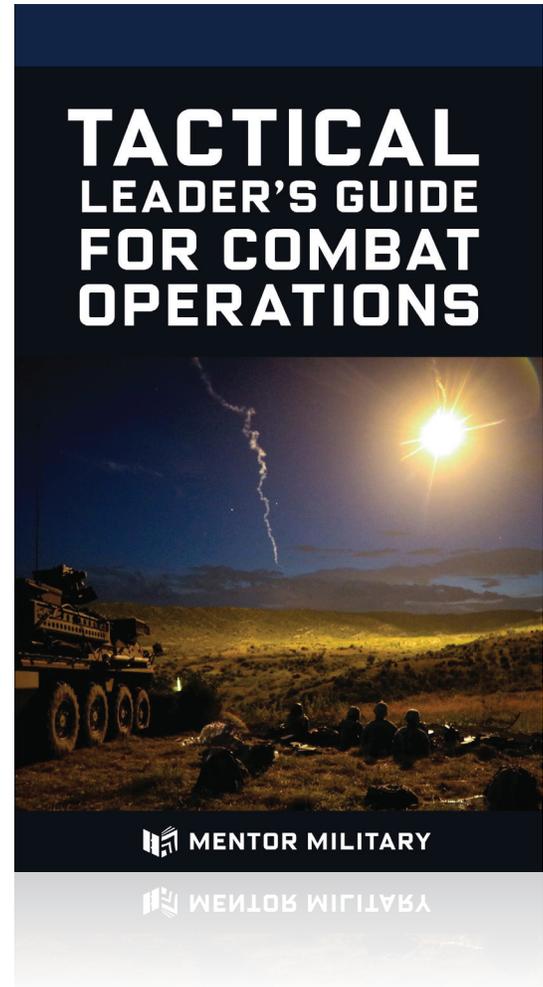

- Plan and execute troop leading procedures
- Develop running estimates
- Use a military decision-making process matrix
- Use field expedient methods of land navigation
- Conduct continuous operational planning
- Convert grid and magnetic azimuths
- Track personnel, equipment, & sensitive items
- Properly plan & implement small, medium, and heavy weapons
- And much, much, more!
